WORK EXPERIENCE

Software Developer | NTAM Group (Delta Plus Event Management):

Dubai | 06/2024 - Current

- Leading the development and delivery of **scalable web applications** for global clients like **L'Oréal, Abbott, and Merck**.
 - Tailored and launched **10+** enterprise-grade apps, enabling **2x faster** feature delivery for critical marketing campaigns.
 - Streamlined project workflows, reducing resource allocation conflicts by **20%**.
- Implemented advanced **AI solutions** to redefine event engagement.
 - Engineered **AI chatbots** that reduced event query resolution times by **50%**, ensuring seamless user interaction.
 - Created **real-time AI avatars with Python and Next.js**, delivering cutting-edge personalization experiences for **5,000+ event attendees**.
- Orchestrated the development of **cross-platform mobile applications** for Android and iOS platforms.
 - Delivered **5+ high-impact apps** for clients such as **Pfizer and L'Oréal**, achieving a **95%** app stability rate post-deployment.
- Optimized **database systems** to improve data integrity and performance:
 - Re-architected **SQL and NoSQL** solutions, supporting seamless scaling for **5TB+ data loads**.
- Crafted an **image segmentation and motion-tracking** event app for **Nestlé** using **Flutter** and **Electron.js** on **Windows**:
 - Integrated **MediaPipe Holistic** for **full-body tracking and background customization**, enhancing event interactivity.
 - Boosted attendee engagement by **40% through real-time**, motion-based user experiences.
- Developed digital assets for pharmaceutical engagements:
 - Assembled **50+ VEEVA CLM** components and templates, **boosting content approval timelines by 40%**.

Full-Stack Developer | Indus Real Estate LLC

Dubai | 12/2022 - 06/2024

- Redesigned real estate websites to enhance user experience and engagement:
 - Delivered dynamic platforms using **AngularJS and Node.js**, increasing **property inquiries by 25%**.
 - Optimized site performance, leading to a **35% reduction** in load times during peak traffic.
- Built and deployed a **cross-platform event management system**:
 - Built a **Flutter-based** solution with integrated **QR scanning**, reducing **attendee check-in times by 70%**.
 - Conducted training sessions for staff, achieving **full adoption across 3+ regional offices**.

Flutter Developer | DOSII

India | 06/2022 - 12/2022

- Engineered a **university admissions platform**:
 - Built an app integrating **predictive analytics for admissions**, used by **1,000+ students** within the first quarter of launch.
 - Earned praise from academic institutions for pioneering a transparent admissions approach.
- Spearheaded the design and implementation of comprehensive **integration tests, unit tests** for **Flutter** projects
 - Automated critical workflows, **reducing manual testing efforts by 70% and enabling faster release cycles**.
 - Improved overall app reliability by detecting and **addressing edge cases pre-deployment**.

Flutter Developer Intern | BROTOTYPE

India | 11/2021 - 04/2022

- Designed playlist management, shuffle playback, and favorites features, increasing session duration by 2x.
- Implemented 5+ key features, demonstrating efficiency in Flutter app development.

SKILLS

Programming Languages: JavaScript, TypeScript, Dart, Python, PHP, Node.js, Java, C, C++ (Qt Framework), SQL, NoSQL.

Frameworks & Libraries: Angular, Flutter, React.js, Next.js, SvelteKit, Express.js, Ionic, React Native, Electron.js, Tailwind, TensorFlow.

Tools & Platforms: Git (GitHub, GitLab), Firebase, Docker, AWS, Agile Development, Microservices, State Management.

Artificial Intelligence & Advanced Features: AI Chatbots, Image Generative Models (Stable Diffusion), LLMs, Real-Time Avatars, Predictive Analytics, Computer Vision Solutions.

Testing & Quality Assurance: Proficient in Unit, Integration, and Component Testing using advanced automation tools.

Domain Knowledge: Event Management Tools, VEEVA CLM Components, Approved Email Templates.

EDUCATION

Crossroads Software Engineering Bootcamp

India | 08/2020 - 11/2021

- Specialized in mobile and web app development and backend services.
- Completed 10+ projects, gaining proficiency in agile workflows and version control.
